To Whom It May Concern:

Hugo Guzman of Forever Green has completed four jobs for us in the past four years. Three of these jobs have been significant, including a total makeover of our backyard, front yard landscaping and the creation of a paving stone walkway and step to our front entryway, a paving stone driveway and a small job of mulching and clean up of our white pine evergreen border along our backyard property line.

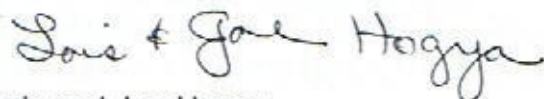

The first job included taking up and discarding our old existing concrete patio and walkway, plus the removal of four large trees and the taking down of the old and putting up of a new privacy fence surrounding our patio area. Hugo listened to our wants and needs in addressing all of our concerns. He consistently showed his attention to detail throughout the entire construction process. Hugo completed the job within the timeframe that he had promised us. It is now four years later, and the project still remains the dream patio that we had hoped for.

The second job included complete re-landscaping of our front yard, plus the installation of a paving stone front walkway and step to our front entryway. We were not exactly sure what we wanted, but Hugo used his impressive landscaping and hardscaping skills to again create what we feel is beautiful.

Lastly, the massive driveway excavation of our long 2-car old concrete driveway and installation of our new paving stone driveway went off under Hugo's direction flawlessly. Hugo is a perfectionist. Since the paving stone walkway that Hugo previously installed in the first job did not match up perfectly with our new paving stone driveway, Hugo moved and reinstalled the paving stone walkway so that it would perfectly align with the paving stone driveway. We do not feel that there are many contractors who would pay this very close attention to detail and take as much pride in their work as Hugo does. We feel that the new paving stone driveway is a work of art.

We feel lucky to have met Hugo. We appreciate that Hugo has helped us to beautify our home. Hugo is a man who we feel can be trusted.

Sincerely,

To Whom It May Concern:

I am happy to write this letter of recommendation to any prospective client of Forever Green Landscaping. In spring of 2009, my wife and I decided to do a patio for our new home in Robbinsville, New Jersey. I received many estimates from various landscaping companies. Hugo, the owner of Forever Green Landscaping took his time on the weekends, mostly Sundays to show his past jobs, and I was very impressed of his company workmanship. From the estimates received only Hugo's was described in detail on how the job will be performed, and what materials will be used. Also, the price was very reasonable compare to other companies.

Forever Green attention to detail in the planning, execution, and follow-up is commendable. Hugo and his staff are friendly, knowledgeable and hard working individuals. In addition to the quality work they performed, Hugo and his staff have always been responsive to our requests and to any concerns we may have had. The project was completed on time and has resulted in extraordinary compliments from all that have seen our patio. Thus, my wife and I are not only very pleased with the final results of our landscape project, but also with our decision to use Forever Green Landscaping.

Sincerely,

Robert Piskadlo
